

PLAYERS WIN WITH DEUCES!

Deuces Wild is an Exciting Side Bet That Offers Players the Opportunity to Win When They are Dealt a Deuce in Their First Two Cards. The Other Card Determines the Odds Payout.

The Deuces Wild bet is an optional blackjack side bet that gives players the chance to win if either of their first two cards is a deuce. If players do have a deuce, then they are paid odds based on the value of the other card in their hand. If players do not have a deuce in their first two cards, the Deuces Wild bet loses. After the Deuces Wild bet is resolved, blackjack continues according to house rules. See payable for odds payouts.
